

## Enterprise Web Platform & Modernization Specialist

Houston, Texas | Toronto, Ontario | **NAICS:** 541512 | 541511 | 541519

### Executive Overview

DeljooSoft is a North American Enterprise Web Platform & Modernization Specialist supporting government and mid-to-large organizations in modernizing, securing, and scaling their digital platforms.

Operating from Houston, Texas and Toronto, Canada, we bring over 10 years of organizational experience and executive leadership with more than 20 years in software development and enterprise architecture. We deliver structured modernization initiatives that improve performance, security, scalability, and long-term sustainability.

Our services span the full lifecycle, from digital strategy and planning through implementation and ongoing operational support, combining advisory discipline with hands-on engineering execution.
